Subject: update re: Wednesday's meeting

Hello,

Commissioner Castro spoke with Rich Caccapolo regarding the agenda for next week's CB2 meeting. BC Castro didn't want to have both the WSPC and Expressive Matter vending rules on the same night--two huge subjects with potential for large crowds and lengthy public comment.

Because Expressive Matter rules are slated to begin on May 8, they decided to make it the main subject of the May 1 meeting. The Conservancy will be the main issue of the June meeting (June 5, I think).

I will be introduced at the CB2 meeting on Wednesday, and will say a few words of hello, but BC Castro wants to postpone the substantive conversation about the WSPC until June. He thinks that the main questions of debate may have chilled out somewhat, by that time.

Please mark your calendars for June 5 and I will confirm that ASAP.

More soon, enjoy the weekend!
Sarah

Hi all,
Please put a light hold on May 14 and May 22 (all day) until I can get a meeting on BC Castro's calendar.
I've put in a request to his scheduler.
Thanks much.
Sarah

Subject: Bill: May 13 meeting date

We have to meet with Bill before the CB meeting. There are too many murky areas for which we do not have answers that would satisfy public inquiry.

Sarah, can you co-ordinate?

Here are some times I am free.

May 8 after lunch and walk thru park
May 9 2PM on
May 14 all day

Veronica

Betsey and all:

Thanks so much for this kind note. I really appreciate it.

We've got a couple of black-diamond weeks ahead of us, so we've all got to fasten our goggles and do our best. Commissioner Castro and Steve are being very helpful as we prep our response to the New York Post inquiry.

I'll keep you posted as things develop today.

All the best,
sarah

Subject: Filing ok'd by Parks

Dear Bill,

All of us want to thank you for the endless help you have given us to make sure this unusual partnership can happen. We have taken up so much of your time and space. Yet, honestly, I can't promise that in the future we won't be just as much trouble.

Sarah has been magnificent . She is on an unusual learning curve - like a new skier facing a black slope - and has aced it. We are all so impressed.

The reward, just think what a wonderful Park we are all serving.

Again, Many, many thanks

Betsey
